- **EURAXESS Worldwide**
A networking tool for European researchers working outside Europe (ASEAN, China, India, Japan, Latin America and Caribbean States, North America)

EURAXESS for Industry (EURAXIND): Supporting intersectoral mobility

EURAXESS Austria: Erfahrungsaustausch
19.2. 2018 Ylva Huber, FFG

ROUGH GUIDE TO EURAXIND: Aims

- Identify employers' and researchers' needs to support intersectoral mobility and collaboration
- Provide the EURAXESS network with online resources to support institutional outreach to and engagement with employers
- Encourage researchers to consider career and research opportunities within industry
- Attract more industry employers to use EURAXESS services

ROUGH GUIDE TO EURAXIND : Who?

- CRAC (Careers Research & Advisory Centre) -Vitae, UK
- FECYT – Spanish Foundation for Science and Technology, Spain
- FFG – Austrian Research Promotion Agency, Austria
- BZN – Bay Zoltan Nonprofit Ltd, Hungary
- Sofia University, Bulgaria
- IP&D – Innovation, Projects and Development, Israel
- NUFFIC - the Dutch organisation for internationalisation in education, The Netherlands

British Council, UK / Irish Universities Association, Ireland / DLR, Germany
Fondazione CRUI, Italy / Centre for Research and Technology Hellas, Greece
University of Gothenburg, Sweden

ROUGH GUIDE TO EURAXIND: How?

- Literature reviews
- Surveys
- Employer engagement strategy
- Workshops for EURAXESS network and for employers
- Development of a **Career Development Module**
- Development of an **Employers Engagement Toolkit**

WHY SHOULD ACADEMIA ENGAGE WITH BUSINESSES?

Intersectoral collaboration fosters horizon scanning: skills forecasting in technological developments and in predicting innovations of the future

Employers can prefer to recruit employees with experience in industry already

Employers can be less aware about skills obtained during PhD: adaptability, capacity to deal with complex problems and to engage in international and interdisciplinary work

Ways to upport intersectoral mobility: internships and improving the understanding of what constitutes transferable and horizontal skills (Allison et al 2015)

Most PhD holders in EU hired in academia -> Loss of innovation potential (Researchers' Report 2014)

University-business cooperation in research is an important vector of innovation and growth (Allison et al 2015)

Different skills valued in different sectors

Business employers can struggle with academic information systems to detect talent and collaboration opportunities

The longer a researcher is not exposed to industry/business, the less likely to be hired by employer

Researchers' experience: intersectoral mobility is positive for career progressions, gaining experience, increasing employability, funding, reaching the market with research outputs (MORE2)

Intersectoral mobility is a way of ensuring a professional future for PhD holders in an increasingly difficult employment context (Science Europe 2017)

Employers can prefer to recruit employees with experience in industry already

Welcome

EURAXESS - Researchers in Motion is a unique pan-European initiative delivering information and support services to professional researchers. Backed by the European Union and its Member States, it supports researcher mobility and career development, while enhancing scientific collaboration between Europe and the world.

EURAXESS is also your gateway to Science4Refugees, a Commission's initiative helping refugee researchers find suitable jobs in today's challenging research landscape. Part of the initiative, is the Science4Refugees Research Buddies, supporting refugee scientists in finding European researchers to discuss problems, find solutions and study together, by matching their research field, scientific studies and interests.

Digital tools for intersectoral careers

- The big picture: career opportunities beyond academia (based on surveys)
- **Labour market information**
- Competencies by sector
- **Inspiring career stories**
- Self reflection and career planning
- Finding opportunities (advice, support schemes, mentoring, placements, networking, entrepreneurship)
- Getting the Job: Practical advice (i.e. CV writing, interview skills, communication skills, handling job offers outside academia)

Labour Market Information

The idea Enable the researchers to widen their career paths and have knowledge on career opportunities outside the academia.

What? 15 Labour Market information briefings to be published on Euraxess portal and will be intended to researchers about relevant sectors, such as:

- IT sector
- Life science and pharmaceutical sector
- Charity sector
- Energy and mining sector
- Manufacturing sector
- Health and public sector
- Legal sector
- Consultancy sector
- Public Administration Sector
- Publishing and media sector
- Transport, storage, and communications sector
- Agriculture and forestry sector
- Finance sector

Career Stories

The idea: provide inspiring career stories from researchers who made a transition between sectors for others to learn about opportunities outside academia.

40 Career Stories – background of researchers :

- Arts and humanities
- Biological, life and health sciences
- Chemical sciences
- Engineering and computing/IT
- Life sciences and pharmaceuticals including biotechnology, pharmaceuticals, food technology, environmental and biomedical
- Material sciences and chemistry
- Organic Chemistry
- Physical sciences
- Social sciences, economics, law, business, education

Career Stories – areas of employment

- Management, business or finance professional
- Academic Developer
- Expert/consultant
- Functional manager: Production Manager, HR Manager, Business Development
- Management, business or finance professional
- Project manager
- Journalist or media professional
- Pilot
- Public service professional – e.g. Government department manager, Planning / Evaluation Officer
- Public / science engagement professional - e.g. Science Communications Manager, Outreach Worker
- Research or grants manager
- Research / science policy professional
- Researcher + vocational trainer + research manager
- Researcher
- the boss!

Suggestions by Employers

- Career Stories: good idea, but shorten
- Short stories in video format/whatchado.com
- Tailor language to the audience: “career development” vs. “offer a job/looking for a person”
- Labour market information: shorter, use more infographics
- Focus more on skills rather than “careers” in different sectors
- geography matters, disciplines matter
- “the job you are looking for today is not yet created”
